 As usual, we [welcome your comments](#) on the **Tax Tipper!**

Dear Clients and Friends,

Spring's here but all this recent snow is keeping the bugs buried for a while more. I'm not complaining as all this moisture is sure good and needed for our parched farmland but at almost 7°C as I'm writing the newsletter, I'll take it. Naturally, I am looking forward to ATV/cruising season, and I've already pulled my Monte Carlo SS hot rod out of the barn for the first ride of the season. If you are new, welcome aboard; you can get all our previous [newsletters](#), [bulletins](#), and more resources on our website [www.ptccanada.com](http://www.ptccanada.com). With over 26 years of information, we do not miss much and have helped countless clients around the world get their Canadian taxes resolved.

Do you know anybody suffering from AIDS ([Alberta Independence Denial Syndrome](#))? Congrats as you've found the Canadian version of TSD ([Trump Derangement Syndrome](#)). According to [APP](#) lawyer [Jeff Rath](#), about 1/3 of Canadians suffer from this crippling disease, but on a more positive note, many are changing their mind on the subject and are joining the movement; yes, that includes outside the province. Millions watched Pierre Poilievre on the recent [Joe Rogan Experience \(#2470\)](#) and all he did was [expose himself as that 1/3 sick with AIDS](#). Offhand, it didn't surprise me as he's never been for the people and answers to the same masters as the rest of the federal politicians. Attorney [Keith Wilson](#), one of the leaders in the independence movement, has been clear many times, "[Alberta Independence Can't Be Stopped.](#)"

The Alberta Independence movement has much more behind it than one perceives as it's not just about honest folks wanting to

make a living with a fair family life, it's an open war between good and evil. Recently [Keith Wilson](#) and former Alberta Premier [Jason Kenney](#) [agreed to two May debates on the topic](#) which will enlighten much of the country but the real issue with "con"servatives like Kenney and Poilievre is they represent an obsolete system from the past that simply doesn't work anymore. Premier Danielle Smith has done some good things like protecting children from radical transgender surgeries, advocating for gun owners and property rights, and rejecting overreach from Ottawa/international laws like censorship, etc. People have mixed feelings on her "[9 Question Referendum](#)" added to the independence question for the October 19<sup>th</sup>, 2026 vote, but it doesn't matter at this point as Albertans are so ahead of the game it's scaring much of the 1/3 elbows uppers with AIDS.

Seems "[energy lockdowns](#)" have [started all over the world with airport closures, blackouts, stores running out of food, and work from home requirements](#) so here we go with another [IQ test like back with COVID](#). Friends, it's really up to you what you want to do, but for me, life's going to go on "business as usual." I love the big V8's in all my Chevy trucks and in truth, there's lots of energy on this planet. The only thing I will do is stay in my home when required to because that's likely the final conflict to clean up the last of the baddies on the planet, so staying out of the line of fire is wise to say the least.

The [Epstein files](#) have been out for a few months and [millions around the world are not only deep diving into them](#), they've now become influencers. While the rumored gruesome details are all turning out to be

# Neel's Message, continued

true, what's interesting is the futuristic stuff like [time travel](#), [alien disclosure](#), and [clones](#) that have come out. Recently, the [mainstream media](#) brought up the subject of [Trump being a time traveler](#). I not only [suspect he is](#) but if you've had [déjà vu](#), you're probably in the same class. The concept of [clones has not only been in mainstream media since the last century](#), Canada actually has a facility called [Clone Aid](#) involved in their development. I'm not sure if I've seen one personally, but apparently they are so good that they can blend into society undetected. If that wasn't enough, the [White House recently registered the domain aliens.gov](#), so disclosure is here.

Sounds a bit paranormal but much of this revolves around the idea of "[The Multiverse](#)," which in a nutshell is variations of you living in different times; this is where physics intersects with the supernatural. If you're lost, hang in there as there's more. The narrative is there are [fractals](#) of us on [different timelines](#) which are both positive or negative. If you're wondering why things seem so confusing or don't know what to believe, we may be witnessing these timelines intersecting and our ability to manifest decides which timeline we chose. The real war is not in Iran, Venezuela, or even outer space; it's happening in another dimension, and it involves these timelines. The Epstein files touch not only this but everything in the human and metaphysical world. The special forces are the elite warriors fighting this battle at all levels and my understanding is the results shown through [Project Looking Glass](#) is we, the human race, have won at every level.

The actual "AI" is a very ancient entity and brainchild of the matrix which has been holding the whole simulation together. All authentic intelligence is natural whether good or bad, and the AI we understand to be a computing program which accelerates processes like in videos, etc. What we see in social media for example is technology that's been around for a long time but has only become public in the last 20+ years. Same with the internet which was a military communication intel board from post WW2 converted to the information highway in the early 90s and later went commercial. It's a very involved subject which I'm learning daily, but it can be figured out.

This year I'm just roasting a "farm fresh" chicken with all the fixings since we'll be entering peak tax season; I'll just be working hard for y'all instead of celebrating. After all, I've commemorated many feasts every year in the past and a break wouldn't be a bad idea. As the summer is not far now with warmer days around the corner, I would like to take the opportunity to wish you and your loved ones a safe and blessed Easter holiday wherever you may spend it. It is also one of the busiest weekends for me as the rest of the month shifts into high gear, so little free time for me. Enjoy the spring Tax Tipper, and remember "THE BEST IS YET TO COME!"

## What's Happening

### 2026 Federal Budget

The next [Federal Budget](#) is expected to be released sometime in the fall, a year after the last one. There's no election expected at the time of writing so our overview with commentary will follow shortly after that.

### E-FILE Now Up to 8 Years Back

Good news for clients behind on taxes is we can now E-file as far as 2018 or seven years. Also, we can currently download slips back to 2016 and will remain at a 10-year limit. Online adjustments currently only go back 4 years but stay tuned to see if they'll extend those 8 years.

## New Credits, Benefits, Services for Your 2025 Personal Taxes

Every year there are several new changes and/or additions to the tax code. Most don't directly affect the average filer immediately, but the CRA recently listed the [highlights of changes and benefits](#) which the filer may be interested in with a [list of tips](#) including [filing your own for free](#), [improved online access to your tax, benefit, and social security information](#), acceptance of [payment arrangements](#), [Auto Fill](#), and getting [free filing services](#). Check out an article ["What you need to know about filing to the CRA this year as tax season looms"](#) by [Jamie Golombek](#) and ["Top 21 tax changes for 2025 that Canadian taxpayers must know about, from a Canadian tax lawyer."](#) For further details, check out the [Finance department's news website](#) or contact the tax line at 1-800-959-8281.

## UHT May Be Cancelled, But Vacancy Taxes Live on

Recently, the Government of Canada tabled [Bill C-15, an Act to implement certain provisions of the budget tabled in Parliament on November 4, 2025](#), which proposes changes to the [Underused Housing Tax Act \(UHTA\)](#). In a nutshell, the CRA does not expect affected owners to file a return or to pay the tax for 2025 and subsequent calendar years. However, governments at other provincial or municipal levels may keep theirs in effect. For example, in Toronto, the [Vacant Home Tax](#) has submission requirements just like [BC's Speculation and Vacancy Tax](#). [Knowledge Bureau](#) has a [detailed article](#) about this but if you're in these areas do your own research and check your obligations.

## Need to Simplify Your Tax Receipts? Get the "Tax Organizer" Today!

Wouldn't it be nice to just deposit all your receipts in a slot and worry about the rest later? Check out the ["Tax Organizer"](#) which already has categories laid out so you can just drop and go. Perfect for those who hate bookkeeping but want a fighting chance when tax season rolls around. Prices from \$14.99, includes shipping; simply call 1-905-542-8299 to order yours today. Check out an article ["Run a business? Better keep all those receipts handy for a long time to avoid tax trouble"](#) by [Jamie Golombek](#) for insight.

## Student Loan Forgiveness

New for 2026, some students may be eligible to apply for forgiveness on the outstanding student loan. The Government of Canada offers [Canada Student Loan Forgiveness](#) to borrowers who work in eligible occupations in eligible communities. Eligible occupations include:

- Family Doctor
- Family Medicine Resident
- Licensed Practical Nurse
- Nurse Practitioner
- Registered Nurse
- Registered Psychiatric Nurse
- Registered Practical Nurse
- Dentist
- Dental Hygienist
- Early Childhood Educator
- Midwife
- Personal Support Worker
- Pharmacist
- Physiotherapist
- Psychologist
- Social Worker
- Teacher

For further information contact the [National Student Loans Service Centre \(NSLSC\)](#) as it only applies at the "federal" level. Provincial and other government levels must be addressed at those departments.

## Permanent Extended Call Center Hours at CRA

CRA has been open from [8:00 am to 8:00 pm Monday to Friday](#) for a couple of years now thanks to a change in policy. There is now a "call back" option if the lineup is too long so I will have to wait for feedback to see how successful this was as its brand new. Most still use the online services as it is much faster and can cover the bulk of general needs. The general number for personal is 1-800-959-8281 and business 1-800-959-5525, and online at <https://www.canada.ca/en/revenue-agency.html>.

## 2026 Tax Filing Deadline

The deadline is now 33 days for most personal returns and there is no talk of an extension this year. Waiting until the last minute to get your taxes done is never a good idea, especially if you need it assessed soon. Once you are ready to file your 2025 return, plan TODAY rather than April 29<sup>th</sup>. I am jammed to the rafters with appointments, and you may have to wait weeks before getting a chance. Take advantage of our email, fax, phone, or mail service. Make sure you [authorize us](#) if you have not already done so or are a new client. The days of office locations and 9-5 hours are really becoming a thing of the past and regrettably businesses stuck in yesterday's perception will get left there. Most clients are demanding more options, and no surprise appointments are no longer necessary!

## Tax Evasion Drama, Prosecutions, and More Doings

With over 350,000 audits a year, prosecutions are still rare at 106 taxpayers being sentenced but the payoffs are big at \$39 million dollars collected. The convicted do have criminal records, making life in general much harder. [Knowledge Bureau has a detailed article](#) about this but do your own research and check your obligations. Audits are designed to fish out cash so have your receipts and facts in order.

## Getting My Accountant Authorized is a Nightmare

Real People with Real Questions About Real Situations

Dear Neel,  
I'm not much into computers and need to get several years taxes done to qualify for a mortgage. I reached out to an accountant and she's saying I must open an online account, and I just can't sign a form for them to do it like a long time ago. Is this the only way forward?

Jesse L.

Dear Jesse L.,

Yes, as of last year [this is the only option](#) and unless you have a power of attorney, you'll have to get online personally. The [new process is fairly involved](#) in the beginning but once done, it's quite slick. You did not mention if you were also self-employed or had a corporation, but you'll have to open different accounts for each.

It begins with [registering for a CRA account](#), and once you authorize your accountant for the taxes, if you wish to have someone to work with them, you can also authorize that person. For someone who's not computer savvy, it's difficult in the beginning but much better moving forward. Hope this helps!

## Hungarians Splash the Girls for Easter

Courtesy of the [www.pbs.org](http://www.pbs.org)

Remember the “[Ice Bucket Challenge](#)” from over 10 years ago? Well, turns out the basics of that goes back thousands of years, better known as “[watering of the girls](#)” for the original Hungarians. Tradition dictates that participating girls dress in traditional garb and take to the streets, where boys will throw buckets of water at them as they run past. While the Ice Bucket is more therapy related, this one is more of a mating call if you can believe that. Let's face it, many agree the dating scene is DOA and you got to leave it to those ancients, maybe they're on to something? And if you believe this, I have a bucket waiting for you-----ice included!

## Did You Know?

Easter is based on the Moon cycle?
